ABOUT ME

Artificial Intelligence and Data Science undergraduate pursuing a Bachelor of Engineering, with a strong foundation in Python, C, SQL, Machine Learning, and Data Analytics. Gained practical experience through academic projects and hackathons, with an interest in developing innovative solutions and pursuing internship or entry-level opportunities in the technology industry.

EDUCATION

Channabasaveshwara Institute of Technology, Gubbi, Tumakuru	2023 – Present
Bachelor of Engineering – Artificial Intelligence and Data Science	CGPA: 8.2/10
Sarvodaya PU College, Tumakuru	2021 – 2023
Higher Secondary – PCMB	Percentage: 86%
Chethana Vidya Mandira High School, Tumakuru	2021
Secondary School–KSEAB	Percentage: 87%

SKILLS

Programming:	Python, C, Java,
Database:	MySQL, MongoDB
Machine Learning:	Data Preprocessing, Model Training
Data Visualization:	Tableau, Power BI
Tools:	MS Excel, VS Code, GitHub, Jupyter Notebook
Soft Skills:	Communication, Teamwork, Problem Solving, Time Management, Quick Learning

PROJECTS

ATM Cash Demand Forecasting Using ML *Python, Pandas, Scikit-learn*

- Developed a machine learning model to forecast ATM cash demand using historical transaction data, preprocessing, and feature engineering.
- Evaluated model performance and analyzed demand patterns to support efficient ATM cash management and reduce cash shortages.

Bitcoin Transaction Verification and Double-Spending Prevention *Blockchain, Bitcoin, Cryptography*

- Developed a blockchain-based approach for verifying Bitcoin transactions using cryptographic validation and transaction records.
- Implemented double-spending prevention by validating transaction history and ensuring the same Bitcoin output cannot be spent more than once.

BMW Sales Analysis Dashboard *Power BI, Excel, Data Visualization*

- Developed an interactive Power BI dashboard to analyze BMW sales data using KPIs, charts, filters, and interactive visualizations.
- Analyzed sales trends, models, regions, and performance metrics to generate meaningful business insights for decision-making.

ACHIEVEMENTS

- Presented a technical topic at a National Seminar organized under the IEI (India), Bengaluru.
- Participated in a National-level workshop on AI-based Application Development and essential technical skills.
- Participated in 3+ hackathons organized by CIT, developing AI-based solutions for real-world problem statements.

CERTIFICATIONS

- The Basics of Google Cloud Compute Skill Badge – Google Cloud
- National Seminar – IEI (India), Bengaluru
- MongoDB Basics for Students – MongoDB
- Cloud Computing – Skill India
- Power BI and Tableau – Simplilearn

HOBBIES & EXTRA-CURRICULAR ACTIVITIES

- Listening to Music
- Travelling
